

# Student's Academy

## "Moving is music"

*Core to psychomotor therapy, movement is the cornerstone to interactional rhythm through tonic and emotional dialogue as well as symbolisation process. Using all the communication modalities, the psychomotor therapist contributes to movement's expression and relational adjustment .*

*We will explore this theme during this student's academy.*

*En psychomotricité, le mouvement est compris comme le fondement des rythmes interactionnels à travers le dialogue tonique et émotionnel ainsi qu'à travers les processus de symbolisation. Par son travail, le psychomotricien favorise l'expression du mouvement et l'ajustement relationnel en utilisant toutes les modalités de communication. C'est cette thématique que nous vous proposons d'aborder pendant cette académie.*

**From 21 to 25 April 2010**

**Filière Psychomotricité**

**Haute école de travail social  
GENEVA-SWITZERLAND**
